

North Canton YMCA Gymnastics Center COVID Procedures

We are very excited to have everyone back in the gym! For the safety of our athletes, parents, and coaches, we have some new procedures to follow when you come to class.

- All gymnasts and dancers need a gym bag (they will carry their things in this bag to all their events)
- Arrive for class no more than 10 mins in advance
- Sanitize hands upon entering the facility
- Go up the South stairwell to the balcony
 - o Take shoes and clothes off on one of the dots – place everything in gym bag
- Athlete then goes down the North stairwell to the class area (or dance studio) and sits on one of the floor dots while waiting for class to start
- Athlete will use hand sanitizer after each event – bring a small bottle in your gym bag
 - o Coaches will clean equipment after each event as well
- After class the athlete will get dressed at their last event
 - o If they have a phone we will release the athlete after the a text confirms their ride is here
- Parents of preschoolers, as well as athletes and dancers without phones, will need to come upstairs for pick-up
 - o The instructors will bring these athletes to their parents in the balcony

Due to 6 foot distancing requirements there is limited viewing in the balcony and no viewing in the dance hallway. We ask that parents of class age dancers and gymnasts wait in their cars and that the balcony seating be reserved for pre-school parents. We appreciate your understanding regarding these viewing challenges.
